Summary

Aspiring Data Science and AI enthusiast skilled in Python, Machine Learning, Data Analysis, and Generative AI concepts. Familiar with Scikit-learn, Pandas, NumPy, Power BI, and data visualization techniques. Passionate about solving real-world problems using data-driven approaches.

Education

Oriental Institute of Science and Technology, Bhopal

B.Tech in Computer Science and Data Science Engineering — CGPA: 7.01

2023 – Present

Bhopal, Madhya Pradesh

Experience

Maulana Azad National Institute of Technology, Bhopal

Machine Learning Intern

June 2025 – July 2025

Bhopal, Madhya Pradesh

- Worked on a muscle sensor-based Machine Learning research project focused on predicting joint movement patterns using biomedical sensor data.
- Implemented regression models including Linear Regression, Random Forest, LightGBM, and Hist Gradient Boosting using Python and Scikit-learn.
- Performed data preprocessing, feature selection, model training, and evaluation using RMSE, MAE, and R2 Score.
- Generated prediction graphs and visualizations using Matplotlib and Seaborn for model comparison.

Ethara AI

LLM Intern

Feb. 2026 – May 2026

Gurugram, Haryana

- Completed a 3-month internship focused on Generative AI and Large Language Models.
- Worked on prompt engineering, AI workflows, and model optimization techniques.
- Collaborated on AI-driven projects, enhancing research and problem-solving skills.

AICTE EduSkills Virtual Internship

AI-ML Virtual Intern

Oct. 2025 – Dec. 2025

Remote

- Successfully completed a 10-week AI-ML virtual internship supported by Google for Developers.
- Worked on industry-standard Artificial Intelligence and Machine Learning concepts and workflows.

Projects

Mobile-Sales-AI-Analysis | [GitHub](#)

Mar 2025 – Jul 2025

- Built a machine learning-based mobile sales analysis system for sales trend prediction and visualization.
- Performed data cleaning, preprocessing, dashboard creation, and AI-generated business insights using Python and Power BI.

Lexibot Chatbot | [GitHub](#)

Jan 2025 – Mar 2025

- Developed an AI-powered chatbot using Generative AI concepts and modern web technologies.
- Integrated authentication and real-time messaging features for smooth user interaction.

Climate Change Modeling | [GitHub](#)

Sep 2024 – Dec 2024

- Built a predictive analytics project focused on climate data analysis and environmental trend prediction.
- Applied machine learning techniques and visualization methods for generating insights.

Web Threat Analysis Cyber Security | [GitHub](#)

Sep 2024 – Dec 2024

- Developed a cybersecurity analysis project to identify and analyze web-based threats.
- Implemented threat detection workflows and visualization techniques for security analysis.

Technical Skills

Languages: Python, C++, C

ML Libraries: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, LightGBM

Tools: Power BI, Excel, Git, GitHub, VS Code

Databases: MySQL, MongoDB

Core Subjects: OOPS, DBMS, Operating Systems, Computer Networks, DSA

Certifications

Python with Data Science and MySQL – Sheriyans Coding School

Master Data Analysis with Python – Udemy

AI and ML – All India Council for Technical Education (AICTE)

Power BI Workshop – Codewave Solution
